Research Experience

UNIVERSITY OF TENNESSEE – CHATTANOOGA

Summer Research Assistant

Virtual REU

May 2021 – Jul 2021

- Assisted with a research project on COVID-19 cointegration analysis, mentored by Dr. Hong Qin.
- Automated the cointegration analysis of 3000+ US counties using zoo, forecast, VARS, and lmtest.
- Tidied data with tidyverse, lubridate, and dplyr. Visualized cointegrated states using ggplot2.
- Studied time-series analysis (Johansen Cointegration, Augmented Dickey Fuller, and Eigenvalue tests) and aggregated data from NOAA, Johns Hopkins University, CDC, and WHO.

ADELPHI UNIVERSITY

Undergraduate Research Assistant

Garden City, NY

Jan 2020 – May 2021

- Assisted with a research project on agent-based modeling, mentored by Dr. Carl Giuffre.
- Simulated the honeybee overwintering process using NumPy, Pandas.
- Visualized how the honey bee colony can be affected by climate change with PyGame.
- Tidied, analyzed, and visualized simulation data using tidyverse, lubridate, dplyr, and ggplot2.

Presentations

Torres, W. (2021, Aug). "Cointegration Analysis of COVID-19 Transmission at State and County Levels in the US". Platform Presentation, University of Tennessee Chattanooga Undergraduate Research Conference, Virtual

Torres, W. (2021, Apr). "A Simple Agent-based Model of the European Honey Bee (Apis mellifera) Overwintering Process". Platform Presentation, Eastern Colleges Science Conference, Virtual
