<b>Front-end</b>	HTML, CSS, JavaScript (React, Node, Express)
<b>Back-end</b>	PHP, Node.js, SQL (MySQL, PostgreSQL, NoSQL)
<b>Programming</b>	Python, Java, C, C++
<b>Tools</b>	Git, REST API, Linux, Android Studio, React Native, Unit Testing, Agile

## Projects

### GigFindr

#### Full Stack Project

- Designed and developed a social networking platform, implementing profiles, private messaging boards, public forums, and an in-app music sharing service using HTML, CSS, and React.js.
- Implemented and developed a REST API using Node.js and a server using MySQL and Express.js.

### Incident Response Form

#### Backend Project

- Developed an incident response form featuring single sign-on, information sharing via email, and ticket creation, editing, and removal.
- Designed using HTML and CSS; Implemented a RDBMS with MySQL wrapped in PHP.

### Take 10

#### HackHealth Hackathon Project

- Designed and developed a React Native mobile application with three pages: a grounding exercise quiz, a time-based deep breathing animation, and a resource page for finding professional help.

## Work Experience

### Adelphi University

Garden City, NY

#### Teaching Assistant

January 2021 – May 2021

- Provided individual and small group instruction for students in Statistics and Calculus 1.
- Assisted students with programming and computer software skills in Python, R, Excel, and LaTeX.

#### IT Project Management Assistant

September 2019 – December 2019

- Assisted with 30+ projects, portfolios, and department management activities required to support the IT Department.
- Created, monitored, and updated milestone reports, dashboards, spreadsheets, forms, and the IT Department's database.
- Organized weekly meetings, coordinated materials, and tracked action plans.

## On-Campus Involvement
