PROJECTS

GigFindr November 2021 – January 2022

Full Stack Project

- Designed and developed a social networking platform, implementing profiles, private messaging boards, public forums, and an in-app music sharing service using HTML, CSS, and React.js.
- Implemented and developed a REST API using Node.js and a server using MySQL and Express.js.

Incident Response Form November 2020 – December 2020

Backend Project

- Developed an incident response form featuring single sign-on, information sharing via email, and ticket creation, editing, and removal.
- Implemented a RDBMS with MySQL wrapped in PHP and styled using HTML and CSS.

Take 10 February 2020 – March 2020

Mobile App Project - Hackathon

- Designed and developed a React Native mobile application with three pages: a grounding exercise quiz, a time-based deep breathing animation, and a resource page for finding professional help.

WORK EXPERIENCE

Adelphi University Garden City, NY
Teaching Assistant January 2021 – May 2021

- Provided individual and small group instruction for students in Statistics and Calculus 1.
- Assisted students with programming and computer software skills in Python, R, Excel, and LaTeX.

IT Project Management Assistant September 2019 – December 2019

- Assisted with 30+ projects, portfolios, and department management activities required to support the IT Department.
- Created, monitored, and updated milestone reports, dashboards, spreadsheets, forms, and the IT Department's database.
- Organized weekly meetings, coordinated materials, and tracked action plans.
